Not Just Another Scavenger Hunt

Goldin Leadership offers several creative scavenger hunt type activities that we customize to our client's needs. Some of the factors we will take into account include: location, group size, time frame, physical abilities and the clients overall goal; whether it's communication, teamwork, group bonding or just plain old fun. Our creative hunt themes include:

Seaside Photo Safari : This adventure requires teams to step out of their comfort zone and participate in some zany tasks to earn points and be crowned the champions. Whether it's taking candy from a baby, riding a roller coaster kayaking to buried treasure, a digital photo will be required to prove accomplishments. These photos will then be used at the end of the program to determine the winner and to create a final slide show for all to enjoy.

Geo Pursuit: Let the Games begin. Teams will compete to find hidden treasures through out the city of your choice. Using only Handheld GPS devices and a list of critical clues, teams will race against clock as they are tasked to solve puzzle and decipher codes that will lead them to their ultimate destinations. Watch your teams strengths and abilities emerge right before your eyes.
